Subject: Draft Agenda for Next Week

Hi everyone, here is the draft Agenda for next week, let me know if you have comments, or suggestions for the Agenda, I was unsure what conference room we would be meeting in, can you let me know and I will add them to the Agenda. I, John, LaDonna and Earle are all in Chicago this week, but I have e-mail access and I have my cell phone with me and can be reached at 214-680-9776.

Subject: Grants Meeting July 14-16, 2009

Just a follow-up to our conference call of June 10th to make sure everyone is still on the same page. We agreed to meet in Santa Fe July 14, 15, and 16 to develop a strategy for the assessment of Area 4. The goal of this meeting is to collaboratively determine the next steps for this initial study area, to sit down and to understand what each group is doing to avoid duplication of assessment activities, to better target sample locations, and to maximize our joint resources. This meeting is to be held at either MMD or NMED conference room. It is to be a planning and roll our shirt sleeves up meeting. On June 2-4 we looked at 16 of the mines in the study area, the hope being that before we meet in July that as many of the remaining mines within the study area 4 where access is not an issue to undergo field reconnaissance by NMED, those where access is a problem--perhaps a drive by or existing file review. We do not expect final screens to be completed by this time, only to have as much information as we can to begin to develop our plan for this area.
